## DETAILED ACTION

### *Election/Restrictions*

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 1-5, drawn to an apparatus, classified in class 068, subclass 16.

II. Claims 6-9, drawn to an apparatus, classified in class 068, subclass  
12.12.

III. Claims 10-13, drawn to an apparatus, classified in class 068, subclass  
12.03.

2. The inventions are distinct, each from the other because of the following reasons:

Inventions I, II and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as a textiles dryer; invention II has separate utility such as a textiles washer; invention III has separate utility such as a temperature-sensor controllable textile treatment apparatus. See MPEP § 806.05(d).

3. Because these inventions are distinct for the reasons given above, the search required for Group I is not required for Groups II or III, the search required for Group II is not required for Groups I or III, the search required for Group III is not required for Groups I or II, restriction for examination purposes as indicated is proper.

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Art Unit: 1746

5. A telephone call was made to applicant's representative, Mr. Bruce Troxell, on 12 June 2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

6. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Joseph Perrin, Ph.D. whose telephone number is (703)305-0626. The examiner can normally be reached on M-F 7:30-5:00, except alternate Fridays.

8. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Randy Gulakowski can be reached on (703)308-4333. The fax phone numbers for the organization where this application or proceeding is assigned are (703)872-9310 for regular communications and (703)872-9311 for After Final communications.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703)308-0661.
